- Dr.UFD 只支援修復假性故障，我們不保證能夠修復所有的旅行碟問題，如果您的旅行碟無法透過 Dr.UFD 修復，請聯絡ＰＱＩ的客服中心。

- Dr.UFD only can fix spurious bad block error; we do not promise Dr.UFD can fix all UFD issues. If you want to use this software to repair UFD device, please make sure you have rights. (Only for Administrator mode.) If you can not fix your USB device through Dr.UFD, please contact PQI Support Center. Thanks.

- 格式化的速度根據隨身儲存裝置以及系統環境而有所不同。

- The formatting speed depends on your system environment and device status.

Dr.UFD Quick Start Guide

(不同的產品可能會有不同的操作畫面)
(There are different pages for different Models.）

起始動畫 1. 請確認磁碟中檔案已經備份. 2. Dr.UFD 執行復原後內建軟體將無法使用.	Start up animation 1. Please backup your USB device data first. 2. After executed Dr.UFD you will lose your all data and some specific software can't use any more.
在起始動畫之後會看到使用者授權畫面，請按下 OK 鍵繼續。	After start up animation, you will see the user authorize agreement page, please press OK then continue.

|	
授權後面之後就是 Dr.UFD 的主畫面。（不同的產品可能會有不同的設定畫面）如果您確定要清除 USB 上所有的資料，請點選更新，如果尚未備份您的資料，請取消。	After user authorize agreement page, you can see our main page. (Different model device maybe have different page setting.) If you sure to erase you all data in the USB device, please press Update, if you did not backup your own data, please cancel it.

快速：清除 FAT (檔案配置表)。
Quick：Clear the FAT table。
完整：重建 FAT 表以及清除所有的資料。
Full：Rebuild FAT and clear all the data in the flash。

當您看到這個畫面，或是在主畫面上出現更新成功的畫面，代表您已經完成了低階格式化的動作。	When you see this page or complete sentence means your device have already formatted.
