

You will need a VCP driver for use with the Alaris DF-0047A Antenna. This driver can be downloaded from the following location on the FDTI Chip Web site: <http://www.ftdichip.com/Drivers/VCP.htm>

In the **Currently Supported VCP Drivers** table on that Web page, select setup executable in the Comments column of the Windows operating system row to download.

For more information about the Alaris DF-A0047 antenna, visit the Alaris product page at <http://www.alarisantennas.com/index.php?q=catalogue|productinfo,61,Handheld-Direction-Finding-Antenna>
